TEAM MEMBERS

1. Winnie Kahendah-Scrum Master
2. Teddie Machoka
3. Tony Ishangu
4. Victor Siderra
5. Albert Ondicho

PROBLEM STATEMENT

Some of the issues that will come with a currency converter is that it will have to be updated regularly as the world's currencies constantly fluctuate.

The converter must also be aesthetically pleasing and not look like it has been coded at the last minute with inequalities in the design.

SOLUTION

A website that accepts one form of currency and converts it to another desired currency using the current market prices.

500 USD	EUR
1000 USD	EUR

TECHNOLOGIES USED

JAVASCRIPT

CSS

HTML5

CHALLENGES ENCOUNTERED

1. Working with and integrating APIs within the project
2. GIT collaboration proved challenging at first but was grasped over time

FUTURE PLANS

Add more currencies

Enroll for the Moringa Core program to pursue the offered full stack software development programmes

THANK YOU!!
